

# shock absorber retainer DADP-ES-G6-20

Part number: 1812473

FESTO

## Data sheet

| Feature                                 | Value                                 |
|---|---------------------------------------|
| Size                                    | 20                                    |
| Assembly position                       | Any                                   |
| Corrosion resistance classification CRC | 2 - Moderate corrosion stress         |
| Ambient temperature                     | 0 ... 60 °C                           |
| Max. stop force                         | 1,100 N                               |
| Max. tightening torque                  | 9.9 Nm                                |
| Product weight                          | 185 g                                 |
| Mounting type                           | With through-hole and centring sleeve |
| Materials note                          | Conforms to RoHS                      |
| Material stop bracket                   | Wrought Aluminium alloy<br>Anodised   |
